

Beaconsfield House

A six-bed transitional and residential ABI service designed to foster independence and provide a supportive, empowering environment that enables effective neurorehabilitation.

Ideally located within walking distance of the seafront, shops, cafés, cinema, and leisure facilities.

super Mare BS23 1YE.

Our Purpose

Truth Care Group develops specialist services for individuals living with the cognitive, emotional, and physical effects of acquired brain injuries. Our goal is to deliver person-centred rehabilitation and promote community reintegration.

Our values — **Integrity, Respect, Kindness, and Optimism** — guide every aspect of our work.

Who We Support

We support individuals with:

- Acquired Brain Injury including Stroke
- Cognitive and executive function impairments
- Communication difficulties
- Comorbid mental health needs
- Epilepsy
- Personal care needs

We have experience assisting individuals who may lack capacity, and use appropriate legal frameworks to promote their safety while reducing restrictive practices.

We offer a **free initial assessment** to better understand and address each individual's needs.

Dr Kumi Pillay
MBChB MRCPsych MSc

Our Team

Founded by Dr Kumi Pillay, Neuropsychiatrist, our residents have access to a multidisciplinary team including:

- Neuropsychologist
- Neuro Occupational Therapist
- Neuro Physiotherapist
- Neuro Speech and Language Therapist

We provide slow-stream rehabilitation based on individualised SMART goals.
